

DAVOS - WORLD'S FINEST MEETING PLACE

WELCOME TO THE GLOBAL CONGRESS TOWN IN THE ALPS

Europe's highest town is located at an altitude of 1,560 m above sea level. Nestled in beautiful countryside in the midst of the Alps, it has what people from all around the world love: mountains, fresh Alpine air and a picturesque landscape. But it is home to much more than that. Davos boasts a rich congress tradition that goes back more than 50 years and, with the World Economic Forum (WEF), an annual major event with an outstanding international reputation.

The Davos Congress Centre – the first such centre in Switzerland to be recognised as climate neutral – provides all the event infrastructure that one could wish for: modern technology, flexible spaces, a variety of transport options, well-balanced catering services and excellent staff. A perfectly coordinated, comprehensive service and all categories of accommodation are also part of the offering. It's as comprehensive as it gets.

Become a part of the 'spirit of Davos' and book your upcoming event with us. This brochure is your inspiration to do so.

We would be happy to meet you personally and we look forward to hearing from you.

Best regards,
Your Davos Congress Team

8 GOOD REASONS TO STAGE YOUR EVENT IN DAVOS

1. Many years of experience

Anyone who has more than 50 years of experience in hosting international congresses can be trusted. We are professionals, and we dedicate ourselves to the perfect organisation and hosting of your event. Swiss quality guaranteed, Davos spirit included.

2. Unique location within walking distance

Just a few of the reasons why our location is unparalleled: it's on the promenade, the town's main axis; there's public transport right outside the door; it's only a few minutes away from most accommodation and is within easy walking distance of the Alpine countryside – to put it simply, this location is nothing short of unique.

3. Climate-neutral congress centre

The Davos Congress Centre is the first congress centre in Switzerland to be awarded the title of 'climate neutral' – another reason to book your event with us. Climate issues are also becoming more and more important when it comes to organising congresses. This is why we, as congress organisers, help you to calculate and minimise the carbon footprint of your planned event. All this is carried out within the framework of the 'myclimate* certification'. The 'Energy Town' of Davos, the sustainability measures in our congress centre and your support make it possible to certify your congress as a climate-neutral event.

*myclimate is a globally-operating climate protection organisation with its roots in Switzerland

4. Wide and diverse range of accommodation

More than 6,000 beds are available for those attending a congress in Davos: from simple rooms to 5-star hotels and numerous holiday apartments, all of which can be booked conveniently via Davos Congress.

5. Incentives

Whatever your participants like to do in addition to working, Davos Klosters is a synthesis of excellent infrastructure and the countryside. This ensures that inspiring experiences are remembered, and team spirit becomes better than ever. Hiking, biking, Bavarian curling or snowshoeing – there is an extensive range of activities to choose from. More than 75 restaurants offer you culinary highlights, from regional specialities to gala dinners.

6. Sports Unlimited

Do your participants like to spend time outdoors? The decision has to be made as soon as you step outside the door – where to go, at what speed and with what sports equipment. Flat, steep climbs, through the forest, in the mountains or across snow-covered slopes? The fact is, Davos Klosters offers ‘Sports Unlimited’.

7. Events and culture

If you are looking for fascinating entertainment, Davos Klosters provides a wide range of options at almost every time of year. Culture, music and sport all come together to form an engaging combination. The event calendar on the davos.ch website lists the events that are taking place throughout the entire destination – there is something different on offer every day.

8. Guest Card – the Davos Klosters Premium Card

In Davos Klosters, congress participants staying at least one night enjoy the benefits of the guest card. It enables them to use the public bus services in Davos and Klosters and the Rhaetian Railway (the Klosters to Filisur line) free of charge. During the summer season, all guests can purchase low-cost tickets for the cable cars and receive discounts on various offerings.

SEMINARHOTELS DAVOS KLOSTERS

A stunning view across the vast expanse of the mountains of Grisons, myriad first-class accommodation options and exceptional event locations – Davos Klosters is inspiring.

Are you looking for a unique location to impress your guests? Or a multi-purpose conference room for your participants? Our 15 seminar hotels offer options and experiences that you and your team will love.

Meet where great minds and leaders gather year after year at the WEF. Allow the famous ‘spirit of Davos’ to leave its mark on your event, inspiring innovation and change. We at the Convention Bureau Davos are happy to help you create an exceptional and memorable event.

We assist you with the preparation and staging of your seminars or your individual supporting programme. We would be happy to provide you with a quotation within 24 hours; this contains a summary of all 15 seminar hotels, plus their availability and potential dates.

We look forward to hearing from you.

CONGRESS MANAGEMENT AND SERVICES

Our congress team is there to help and advise you to make sure that your event is a complete success, from start to finish.

Beginning with a detailed quotation, we assist you with the organisation and staging, through to the conclusion of the event and post-briefing.

As PCOs – professional congress organisers – we take care of all services in line with your wishes:

- Congress exhibitor management
- Participant registration
- Hotel management
- Technical support, including digital and hybrid congresses
- Welcome desk
- Event support service
- Speaker support
- Supporting programmes

Technical facilities at the Congress Centre
Our technical equipment and infrastructure keep their promises. In-person, digital or hybrid events? We plan your event and bring it to fruition with state-of-the-art technology, a well-established team and reliable partners.

Folklore show with traditional highlights or partying and rock'n'roll
Tradition and folklore are just as much a part of Davos Klosters as rock and pop. We have connections to a wide variety of performers and will be happy to advise you. Together, we will find just the right entertainment for your event.

VIP gifts and giveaways
Saying farewell to Davos Klosters is not easy. So that your participants have pleasant memories of your event and it draws to a fitting conclusion, we are happy to organise gifts and giveaways for you, whether it be a delicious Grisons-style nut cake, a traditional 'Bündner Röteli' liqueur or an offer from our gift shop.

Catering service
Creative coffee breaks, business lunches, nibbles and drinks, or gala dinners? Our catering team puts together the drinks and food menus, tailored to your wishes. Thanks to our flair for hospitality, we ensure that guests thoroughly enjoy the occasion.

GREEN MEETINGS

Environmentally-friendly Switzerland

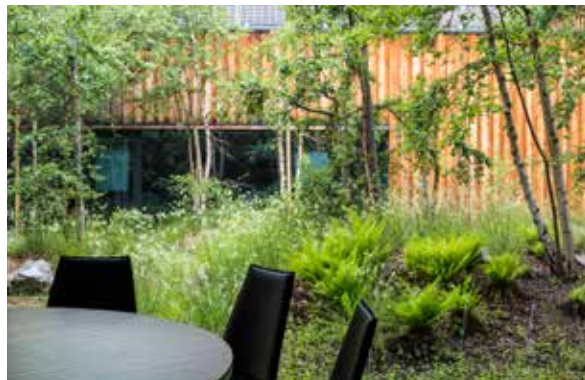

Two thirds of Switzerland's energy is generated from renewable sources, in particular from hydroelectric power. Switzerland is also a front-runner when it comes to recycling. For 125 years, Swiss forestry legislation has ensured that at least 30% of the area of Switzerland is covered by forest. The SchweizMobil foundation coordinates and promotes non-motorised traffic for leisure and tourism in Switzerland. Eighteen nature reserves help to preserve and enhance 610,900 hectares of natural habitat. This corresponds to 14.8% of the area of Switzerland.

Energy Town by the Swiss Federal Office of Energy and the 'Energy Town Label' sponsors. The next goal is to become the first climate-neutral holiday destination in Switzerland by 2030.

The 'Energy Town' of Davos

Excellent transport infrastructure with international airports, an extensive and punctual railway network and the use of buses make travelling to Davos both pleasant and environmentally-friendly. Due to its central location in the middle of the town, the Davos Congress Centre is easy to reach on foot. In 2001, Davos was the first district in the canton of Grisons to be officially named an

Climate-neutral congress centre

Thanks to our environmentally-friendly measures, the 'myclimate' environment protection organisation awarded the Davos Congress Centre the title of 'completely climate-neutral congress centre' as of 1 June 2020. It is therefore the first climate-neutral congress centre in Switzerland.

Climate issues are becoming more and more important, including for the organisation of congresses. Sustainability pertains to everything, from the choice of location to the supporting programme and local catering services. If you would like to stage a climate-neutral event, we will help you to calculate and offset your carbon footprint.
